## EDUCATION

### JUNO COLLEGE OF TECHNOLOGY

Immersive Web Development Program  
Jul - Sept 2017

Part-Time Web Development Program  
Mar - Jun 2017

## EXPERIENCE

### GENE AGENCY

Web Developer  
Dec. 2019 - July 2020

Developed, maintained, and updated websites on behalf of Gene agency. Converted designs into identical, dynamic UIs that brought visions and great user experience to life. Ensured that projects were fully responsive, had optimal performance, and met WCAG accessibility standards.

### JUNO COLLEGE OF TECHNOLOGY

Lead Instructor (Part-time)  
Jun. 2019 - Present

Instruct classes of up to 40 students. Explain advanced concepts and layout systems. Teach students how to convert PSDs into real websites. Conduct code-alongs, project reviews, and ensuring the overall success of each student.

### IDENTOS

Front End Developer  
Mar. 2018 - Nov. 2019

Created applications large scale applications using component-based development. Participated in an agile environment. Wrote/contributed to technical requirements and design pages.

### STITCH MEDIA

Front End Developer (Contract)  
Jan. 2018 - Mar. 2018

Created websites for Stitch Media, as well as the company's clients, that can be viewed optimally across browsers and devices.
